

Many html tags have an opening tag and a closing tag. This is an example.

```
<h2> Hello Coder </h2>
```

HTML stands for...

Hypertext markup  
language

Html tag used for  
placing images in a  
webpage.

```

```

Html tag used for large  
paragraphs of text.

```
<p> </p>
```

Html tag used for main headings.

`<h1>`    `</h1>`

This tag breaks a line of text into two lines.

`<br>`

This tag adds a horizontal line and is an example of a html tag that does not require a closing tag.

`<hr />`

This tag allows you to embed video content to a webpage.

`<iframe>`
